Billing Terms & Conditions: Order a sample of Burn HD for just the cost of shipping and handling. You have no obligation to buy anything in the future as long as you cancel within 14 days. Otherwise you will be enrolled in our Burn HD Member Program, where we automatically send you a one-month supply of Burn HD in 14 days and every 30 days thereafter for just \$89.95 plus \$5.95 shipping and handling. To change shipping frequency, cancel or extend your trial, call 844-964-3258.

I am over 18 and agree to the Terms and Conditions of this offer and the Privacy Policy.

HELP ME START LOSING WEIGHT NOW

Our 20 Pound Promise

If you don't lose 20 pounds (10.5% of your BMI) by April 18, 2018, we will ship you 90 days of Burn HD™ – completely free of charge.

Frequently Asked Questions:

Q: How does Burn HD work?

A: By using Thermogenic and lipolysis-inducing agents, Burn HD provides an effective, safe way to assist your body in releasing stored fat and increasing metabolic rate in order to burn fat.

Q: What are the ingredients in Burn HD?

A: Burn HD contains four safe, all-natural and clinically proven ingredients: Meratrim®, ChromeMate®, Green Tea extract and Caffeine. Formulated in a GMP-certified lab, Burn HD doesn't contain artificial ingredients, fillers or binders. The product is gluten-free, non-GMO and made in the USA.

Q: How do I take Burn HD?

A: Simply take one capsule, twice daily. We recommend taking it at least 30 minutes before meals and at least 4 hours before bedtime.

Q: How long will it take to start seeing results?

A: Many people report seeing and feeling a difference within the first several days of taking Burn HD, but results vary depending on exercise and diet. We noticed many people who have achieved their weight loss goals stay on it for at least two months.

Q: Are there any side effects associated with Burn HD?

A: With 200,000 customers over a 8-year period, the product has proven to be extremely safe. Users particularly sensitive to caffeine can experience mild jitters. (Burn HD contains a bit of caffeine- less than in a cup of coffee.) Of course, women who are pregnant or nursing, those under 18 yrs old, those taking prescription drugs or people with pre-existing health conditions should consult a doctor before taking Burn HD.

Q: Does scientific research demonstrate the effectiveness of the ingredients in Burn HD?

A: Burn HD references several published studies in peer-reviewed journals to support the weight-loss claims they make about the ingredients in the product.

For example, two placebo-controlled clinical studies published in Obesity and Journal of Medicinal Food, both prestigious peer-reviewed journals, showed the effectiveness of Meratrim, one of Burn HD's main ingredients. Combined results demonstrated significant reduction in weight, as well as smaller waist & hip circumference.

In fact, after just eight weeks, participants receiving Meratrim instead of the placebo steadily experienced weight loss.

Burn HD's other main ingredient was found in randomized, placebo-controlled studies at Georgetown University and University of Texas to support healthy blood-sugar and cholesterol levels, as well as to preserve healthy body weight.

Burn HD's formula also includes Green Tea Extract, which has been shown in numerous studies, including one published in the American Journal of Clinical Nutrition, to result in sustainable weight loss, when combined with a healthy diet and moderate exercise.

Q: Will Burn HD make me feel jittery?

A: One dose of Burn HD contains less caffeine than a cup of coffee. Most people who take Burn HD do not complain of any side effects from the caffeine.

Q: Does Burn HD contain ephedra, ephedrine or any related compounds?

A: No, Burn HD does not contain Ephedra or any related compounds.

Q: How will I feel while I'm taking Burn HD?

A: Generally speaking, most people feel great – energized with more mental clarity. A few individuals notice very mild headaches or increased heart rate. If so, you should discontinue using Burn HD. You should consult with a physician or licensed, qualified health-care professional before starting any weight loss regimen.

Q: Do I have to go on a special diet to see results with Burn HD?

A: No, but for best results we recommend that you:

- Eat a healthy whole-foods diet, including lots of fresh fruits and vegetables, lean meats and fish, and low-fat dairy products.
- Drink at least 8 glasses of water each day.
- Eliminate empty calorie junk foods from your diet, including sugar-free soft drinks.

Q: Is it necessary to exercise with Burn HD?

A: For best results we recommend that you exercise three days a week (even a 20-minute walk) while taking Burn HD.

Q: Does Burn HD work as effectively for men and women?

A: Yes, many men as well as women have reported meeting their weight loss goals with Burn HD.

Q: How do I reach out to Burn HD?

A: Feel free to reach out by phone at 844-964-3258, 9AM-7PM EST, Monday through Friday. You can also send email to customercare@dietspotlight.com. Burn HD's customer-service group is extremely responsive and helpful. In addition to offering a great product, Burn HD's success comes from the high level of trust it maintains with its customers.
